Intruders Remove Ventilating Fan To Gain Office Entry

Efficient yeggs cracked two safes in the Moose Lodge on E. 3rd St. early today and escaped with an estimated \$3,000.

The intruders battered their way into a 600-pound safe in the office of the lodge home and then knocked off the combination to open a smaller strongbox built into the back bar.

Arnold Densmore, secretary, estimated the loss. He said it was in both cash and checks, representing bar receipts and members' dues.

Police Capt. Robert Pyle. directing the investigation, said the burglars gained entrance to the one - story brick structure by unbolting and removing a big ventilating fan built into the southeast wall.

Hasty Action Would Be Regrettable

City Council will meet in special session tonight to take action one way or the other on Mayor Merrill D. Hall's veto of an ordinance that granted a New Jersey concern a 15-year franchise to operate a community television cable service in East Liverpool.

In his veto message, the mayor said he felt the ordinance should contain a clause requiring the company to dismantle its lines and other equipment if it ceases business. And-more important-he disclosed that another firm, this time from Ohio, would like to apply for a franchise also, with the promise of lower rates and franchise fees amounting to several thousands of dollars for the city.

Developments revealed the "Ohio firm" as being from Steubenville. It has presented its proposal on the TV cable to Council since the veto of the original legislation, with the fees to the city placed at more than \$37,000 during the length of the agreement

The Review suggested earlier this month after the mayor's action that in view of the possible benefits both to the city and to the potential customers that Council should take time to study the second proposal. And we feel very strongly that this

The new TV service-while being most welcome-is not something that is a matter of life or death and is not something that is vital as of the moment. An additional delay of a few weeks, a few months or for however long it might take for a comprehensive study of the latest plan, or other plans, would not affect our everyday living to any appreciable extent.

Only the councilmen themselves know at this time what action will be taken to-

But the fact that they have called a special meeting - with a regular session already scheduled for Monday night-and the fact that several members expressed irritation at the time over the mayor's veto would indicate that an over-riding is in the offing.

It is to be hoped, however, that the atmosphere has cleared since the veto message and that the majority of the legislators will not let whatever critical attitude that may exist toward Mayor Hall interfere in any way with the necessity of keeping the best interests of the city and the people at heart.

Hasty action on the final disposition of the TV cable legislation would be regret-

Support The Mental Health Levy

The war against mental illness is being waged on an ever broader front - and with considerable success in many cases. Columbiana County has been doing its

part by the establishment in November of 1963 of a mental health clinic at Lisbon. The clinic at present is being sponsored by the Columbiana County Mental Health Association, with partial financial support from the Ohio Department of Mental Hy-

to assist in the clinic's operation. To assure this continued successful operation, the county's voters are being asked to approve a one-tenth of a mill levy Tuesday which would produce an estimat-

giene. A fund drive in 1962 raised \$15,000

There is no question of the value of the work that has been carried out to date at the clinic, with more than 200 having been treated or being under treatment. This is too excellent a start in the direction of improved mental health to be allowed to be wiped out because of lack of funds.

In probably no other field does the timehonored expression "an ounce of prevention is worth a pound of cure" have more meaning than in the field of mental

We call on the county's voters to give overwhelming approval to the one-tenth of a mill levy when they go to the polls

Another Boost For Planning

The cause of proper municipal planning was given another boost Wednesday night during the Chamber of Commerce dinner meeting at the Country Club.

Carroll V. Hill of the Columbus firm which has been engaged by the City Planning Commission to assist in the master plan here outlined the objectives of the program and the results which can be

expected on a long-range basis. Aside from the actual mechanics, Mr. Hill placed emphasis on motivation and the over-all cooperation vital to a realization of the various goals.

Campaigndoggle

In paper tonnage, this is an historic national campaign.

Someday after one of these efforts to fnundate the nation in wood pulp, the cost accountants should be turned loose.

Their purpose should be to estimate what part of the multi-million-dollar campaign expenditure was piddled away in

useless paper work. Mail carriers have broken arches from carrying a deadweight of printed material that could not have had any effect in the campaign, though it brought great joy and many mink coats to glibsters who sold someone a bill of goods.

Newspaper workers are more aware of the waste than others because they are on the receiving end of most of it. Every distribution of mail every day brings fresh loads of texts of speeches delivered one, two and three days ago, little booklets of hot ammunition that cooled off in transit and reams of goomaw destined for the paper baler.

THOUSANDS of tons of literature are distributed to voters who did not solicit it and treat it the way they treat all other junk mail.

It is in the same category with millions of pamphlets stitched together for campaign use only and broadcast from coast to coast and with tens of millions of letters purporting to have been written personally and sent willy-nilly to mailing lists compiled by drudges poring over phone books and directories.

This-and silly TV commercials and radio spiels-must be blamed for running up campaign costs to astronomical heights. If the time comes when some fool proposes that taxpayers should bear the expense of this flummery, because this is the way the two-party system must work, there should be a popular uprising.

I do not know how much money is wasted in campaigns on things that weren't worth doing but for openers how about 50 per cent of the gross?

THE WAY THINGS have been going, you might think the winner was going to be determined by tonnage or TV time. Even worse, you might think the campaign managers were operating on the theory of those military stragegists who believe if you can't lick 'em with brains you can smother them with money.

Come to think of it, the losing side always whimpers that it didn't spend enough; that it lost because it couldn't afford to buy a victory.

That's why it would be fun to turn the costs accountants loose. Our national

Labor Leaders Fear Overconfidence

By Victor Riesel

Labor's intense strateg-Ists, disdainful and distrustful of the national polls, have been preparing for Election Day in a

manner which would not h a ve shamed Gen. Eisenhower at D-Day minus A vowedly operating on

the theory that the opposing forces Victor Riesel of Barry Goldwater are dedicated, the labor leaders have not overlooked a single impediment to getting millions of voters out

to the polls. They've even warned their people of possible rough weather and directed them to be prepared with extra umbrellas. raincoats and larger fleets of cars to neutralize possible rain, snow or hurricane.

No less a champion and skilled political scientist than Roy Reuther dispatched a memo to almost 200 central labor headquarters the other day warning them of the dedication of Barry Goldwater's sup-

MR. REUTHER, on loan to the AFL-CIO's Committee on Political Education (COPE) from the United Auto Workers. told his colleagues across the land that Sen. Goldwater won the California June 2 primary because 12,000 dedicated Republican volunteers in the Los Angeles area alone worked to bring out the vote.

Reuther, whose title at central COPE headquarters is national director of Registered Voters Campaign, said that similarly, tens of thousands of devoted Goldwater workers will be in the streets on Election Day for

their leader. Along with this communication, mailed on Oct. 20, went a special four-page "Check List of the most massive campaigns in political history - for the labor leaders are not only going after Goldwater, they're fighting to put liberals into governors' mansions and state legislatures and to take at least 25 congressional seats from the GOP.

One operation, for example is the setting up of telephone banks of 25 instruments in many cities. These are staffed by volunteers

FIRST OBJECTIVE of the telephone squads is to raise scores of thousands of network of retirees. volunteers for Election Day action. Calls are put in for recruitment on every street in perhaps 150 major cities. In this manner the Auto Union raised 10,000 volunteers for precinct work in ten weeks back in 1962. The Kennedys used the same technique in '60.

The goal is one man or woman for each ten one-family homes and one worker for each apartment house. These thousands then must be listed, assigned and telephoned before the elections to remind them of their tasks and then again told of their chores on Election Day

On Nov. 3 they will knock on the doors assigned to them and help get the voters to the polls. This is only part of the check list operation. Hundreds of

thousands of voters in industrial centers will be telephoned directly as a reminder, whether or not volunteers have been assigned to their homes THE VOLUNTEERS will be

reinforced by thousands of labor officials, their wives, families and assistants. They have been asked to return to their precinct headquarters after they've voted, to augment the corps recruited by the telephone squads.

Through the last two weeks, and right up to the closing of the polls, there have been and will

gates, citywide meetings and gatherings of locals and shops. Among the "foot soldiers" are thousands of "WADS" - Women's Activity Division-and a

Even all this is only a section of the last minute push against the Republicans. Big billboards, paid for by such unions as the National Maritime Union, are going up in the nation's industrial areas. CRACKLING "C o m m u nication Kits" containing prepared 5 and 15-minute speeches, cartoons, pictures and one-minute radio scripts have been sent to COPE's 63 headquarters from coast-to-coast. In each there are even samples of suggested letters to the editors of daily news-

Why this massive offensive? The national labor leaders and strategists fear their people are over confident. They just don't believe Sen. Goldwater will be a pushover. It's all summed up in the words of fiery Al Barkan,

COPE's national director. . . . I don't care what the polls show," he told a recent gathering of Michigan labor leaders. "The outcome of the Nov. 3 election is still very much in doubt.

Then he attacked the Republicans and wound up with: "You'd be fools to believe this fight is over and won.' Well, we'll soon know.

Implications Of Medicare Pointed Out

The issue of Medicare died temporarily in the 88th Congress, but it continues to be a major point in the coming elec-

All voters should consider the serious implications of this proposal. Under the Democrat sponsored medicare program the total social security tax would increase to \$582.40 by 1971, a total of 10.4 per cent of the employe's gross salary up to \$5,600 a year.

In short, the present admin-Istration proposes that certain limited benefits be provided for all elderly people whether they need it or not, financed by a tax on all wage - earners, whether they can afford it or not! The worker earning \$100,-000 per year would pay no more S. S. tax than the worker earning just \$5,600. This is another tax on the small wage - earner who is already overburdened with direct and indirect taxes.

All Americans want to provide proper medical care for elderly people. The present Kerr - Mills law accomplishes this goal and could be expanded without directly penalizing the worker who earns s mall

EDITOR OF THE REVIEW I read a letter in The Review a few days ago which appeared to be a mixture of panic

and politics. The writter told us to wake up. He also gave the impression that four more years under a Democratic administration would lead us closer to the

chains of communism Communism is Godless. This nation is a nation under God. This nation is a leader of strong nations and a helper of weak nations. Being such a nation it will never be under the Red flag of the Soviet. Keeping this nation strong and free is no easy task. So far the party in the White House (no matter which party) has guided this nation well. But now at the head of the Republican party is the man named Goldwater

Mr. Goldwater, in my opinion,

EDITOR OF THE REVIEW: Recently, two widely - known men have come to the ends of their active duties in wordly affairs. Though they were so different and the end of their activities so unalike, both events stirred worldwide emotion.

In America, Herbert Hoover -at one time disliked unjustly -proved himself one of the most beloved and dedicated patriots in American history. Though our hearts are always sad in parting with someone in death, our grief is greatly overshadowed by the inner knowledge that it can be as a graduation ceremony for them to a higher plane - into a greater joy and life than possible here below.

The memory of Herbert Hoover and the unselfish Christian principles he stood for shall live on forever. Those who are worthy of monuments do not need one - for by their lives they leave an everlasting vision within our hearts.

In such contrast of circumstances, across the sea, Mr. Khruschev's participation in wordly affairs also abruptedly came to an end. One beheld as the No. 1 man, all powerful, most important Russian and world communist leader, swiftly he became renounced, replaced and reduced to no rank.

Surely, this is our perfect example of how communism moves and grows until it controls and kills all that is important, leaving people in the state of a mere physical machine.

It's Not All Sleep

The life of a bear in winter is not all sleep - as some people

Black bears are often mistakenly classified among the hibernating animals. Some are good sleepers indeed, but others sometimes suffer insomnia and wake at the slightest noise. Grizzlies have been seen shuffling grumpily through the forest in the dead of winter.

Females give birth to cubs, usually twins, in midwinter. The mother must spend long hours feeding and caring for their fast - growing offspring.

Although bears rarely enjoy winter - long slumber, true hibernators can sleep right through the coldest months, the National Geographic Society says. Mammals such as the woodchuck and ground squirrel enter a state of suspended animation that is, in effect, a vacation from life. Body temperatures drop dramatically; pulse and breathing approaching the vanishing

In hibernation, a ground squirrel's heart throbs weakly three times a minute, compared to the normal rate of 360 beats. A marmot takes only one shal-

In view of these facts, it isn't any wonder that thoughtful Americans are asking these questions - Is the medicare program part of a huge conspiracy to further control and dominate the lives of the multitude of working people? Is this part of an organized plan to bring total socialism (and then communism) to the United

States of America. Voters, whether we like it or not, we are heading in that direction under the Democrat administration of Lyndon Johnson. which is endorsed 100 per cent by the ultra - socialistic-minded Hubert Humphrey.

Barry Goldwater and William Miller have asked for the proper application of the Kerr-Mills program of medical care for the elderly, without cutting into the limited income of the smaller wage earner by increasing his social security taxes to cover medicare. This is a sound and realistic approach to this subject and one more reason why the working people of the United States should elect Goldwater and Miller next Tuesday.

To the communist, there is no place for people as individuals, nor their individual goals, dreams, nor good samaritan and ambitions. Each person is expected to perform as a machine, carrying out his or her duties according to communistic specification for the growth and advancement of communis-

As election time draws near, let us remember these two individuals and ponder the difference between living in a land of freedom and that of possible fear and slavery.

Let us ask ourselves if a nation really loses its freedom or does it give it away? Throughout history why have many nations fallen. 66 A MAJOR concern of mine has been the military security of this nation.

"Some distort this proper concern to make it appear that I am preoccupied with war.

"There is no greater political lie.

"I am preoccupied with peace!

"The Republican Party is the peace Party.

"We are the peace Party because we understand the enemy. We understand his aims. We understand that he always has and always will take risks and seek advantages when tempted by weakness.

"We seek a strong America because only a strong Nation can keep the peace.

"I do not intend to be a wartime President.

"I do not intend to see peace and freedom torn away from this Nation because we lack will, weapons or leadership.

"I promise an Administration that will keep the peace and keep faith with freedom at the same time.

"The Republican Party - this Party of peace through strength - has no clearer message. Peace has no greater hope. And, I can give you no greater pledge."

Joel H. Sharp of Salem is asking for a fifth consecutive term, his last-in his own words-if he is returned to the Bench. His opponent is County Judge Herbert Arfman of Leetonia.

As the senior member of the Court, Judge Sharp's long experience must be recognized. He and Judge Raymond Buzzard of East Liverpool -not facing re-election this Fall-form a capable team as the County's two Common Pleas Judges.

Judge Sharp has received the endorsement of the County's Bar Association whose members have an opportunity to observe his work

It is our feeling, too, that he deserves another term.

What the Salem News thinks of the **Common Pleas Judgeship**

Judge Sharp Deserves Re-election

Columbiana County has two common pleas courts, presided over by Judges Joel H. Sharp and Raymond Buzzard. The latter's term continues for another two years but Judge Sharp's present term is expiring. He is a candidate for re-election and should be returned to the bench for what he has publicly announced will be his last term

His opponent on the judicial ticket is Atty. Herbert Arfman, who is a county court judge for the eastern county court at East Palestine.

Judge Sharp, who is the dean of common pleas judges, had 17 years of experience as a practicing attorney before he was first elected in 1940. His service since that time has been distinguished.

VOTE FOR JOEL H. SHARP

Judge Sharp pioneered in introducing the pre-trial conferences for lawyers and their clients, a practice that is still carried out and saves time and costs in court litigation. As a judge, always fair and impartial and frequently giving counsel, defendant and prosecution the benefit of his mature thinking and interpretation-of the law, Judge Sharp is looked up to by members of the Columbiana County Bar Association who, in a recent secret poll, gave him an overwhelming endorsement for re-

Judge Sharp, a Salem man long active in civic affairs, which included 12 years on the board of education, can not be equalled when it comes to experience, public service and dedication.

WHAT WILL THE ADDITIONAL LEVY COST?

The additional operating levy will cost the individual taxpayer fifty-four cents per each hundred dollars of assessed valuation. Property in Beaver Local is assessed at approximately forty per cent of its true value. Therefore, a \$10,000 home will be assessed for tax purposes at \$4,000. On such a home, the increase in taxes would amount to \$21.60 per year or less than six cents per day. This is less than you would pay for your daily newspaper.

WHO OWNS THE CITY HOSPITAL?

The City Hospital belongs to the citizens of East Liverpool. It is operated by The City Hospital Association. Any citizen may become a member of the Association by the payment of the annual dues of \$1.00 and attending the meeting of the Association in January.

The members of the Board of Trustees are elected by the Association at the annual meetings. The trustees in turn elect its officers.

The City Hospital is a corporation under State law not for profit and operates at a loss.

No trustee or official at the hospital has ever received a penny of compensation or salary. They pay the same rates for hospital services as any other citizen.

The hospital accepts charity cases originating inside the city limits only. Emergency cases admitted at all hours.

ELECTRICITY

Your average rate per unit of electricity becomes lower and lower as you increase your use of it!

How to get your electricity for less and less

The more work electricity does for you, the more you benefit from our "quantity" rates!

Stores offer many "large economysize" packages at lower cost per pound. Electric rates are figured this way, too. As your use of electricity goes up, your average cost per unit goes down, in progressive

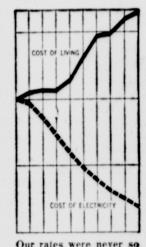

You can enjoy "quantity" rates while working toward the ideal Total Electric home. When you buy an appliance ... a water heater, a clothes dryer, a range, or a heating system . . . make sure it is electric. The more use you make of flameless, clean, convenient electricity, the lower your average cost becomes!

Free booklet gives details Sooner Than You Think shows what steps you should take to get low "quantity" rates. Phone for it, stop in, or mail the coupon.

AEP SYSTEM 7-STATE HIGH-VOLTAGE TRANSMISSION GRID

Fourth model: "After my two boys were born, my bust went down from 34-B to a 34-A, even though my babies were bottle fed. I've tried exercise; gave up. Is there any medication that might help?"

There is no medication that helps a whit. All lotions, devices and such are wholly useless. Work from this premise: The depleted bust is caused by lowered vitality; the sagging bust by a lack of tone in muscles and ligaments. Marked underweight and low vitality affects the bust adversely. -Junior Editors Quiz on-Hamburgers

QUESTION: Hamburgers don't have ham-why the name?

ANSWER: Hamburgers have nothing to do with hamthey are made of ground beef. The word doesn't come from "ham" but from the city of Hamburg, in Germany.

Hamburg is a famous European shipping and trading center, so important it has been called "the Lateway to the world." Goods of all kinds come in and go out; the city is known to seamen and people who handle commodities all over the world. One of the things Hamburg handles is meat. Much processing of products is done in Hamburg. Some enterprising cook discovered how appetizing lean meat can be when ground, given a dash of lemon juice, salt and pepper, shaped into a steak, broiled a bit and put on a plank to bake. Sailors and others coming in and out of the port loved it and called it hamburg steak in honor of the oustling city. Since there was so much trade with America, hamburg steak began to appear everywhere in the United States. Soon we had a miniature hamburg steak, the hamburger. Tender, easy to serve between two slices of a bun, the hamburger soon became an American favorite.

FOR YOU TO DO: Have your mother try this cheeseburger recipe on your friends. Pat out the hamburgers and cook them on both sides. Then place on bottom half of bun, lay a slice of tomato on top, and then a slice of cheese. Put this under broiler until the cheese melts. Add top of bun and you have a delicious variant of the hamburger.
